The FHWA encourages staff to work with State transportation departments, local governments, and other stakeholders to identify opportunities to use BIL resources for the repair, rehabilitation, reconstruction, replacement, and maintenance of existing transportation infrastructure, especially the incorporation of safety, accessibility, multimodal, and resilience features. This includes projects that maximize the existing right-of-way for non-motorized modes and transit options and increase safety, accessibility, and/or connectivity.

General types of projects eligible under TA Set-Aside Program for the Laredo & Webb County Area MPO include: on- and off-road pedestrian and bicycle facilities, infrastructure projects for improving non-driver access to public transportation and enhanced mobility, improved safety and access to schools, and boulevards and similar multi-modal roadways.
